*Abstract:* Authorized by the National Park Service Act Organic Act, 54 U.S.C. 100101, we must preserve America's natural wonders unimpaired for future generations, while also making them available for the enjoyment of the visitor. Meeting this mandate requires that we balance preservation with use. Maintaining a good balance requires both information and limits. In accordance with regulations at 36 CFR, we issue permits for special park uses.

Special park uses cover a wide range of activities including, but not limited to special events, First Amendment activities, grazing and agricultural use, filming, still photography, construction, and vehicle access. Permits are issued for varying amounts of time based on the requested use, but generally do not exceed 5 years. A new application must be submitted in order to request the renewal of an existing permit.

The information we collect in the special use applications allows park managers to determine if the requested use is consistent with the laws and NPS regulations referenced above and with the public interest. The park manager must also determine that the requested activity will not cause unacceptable impacts to park resources and values. The information is collected using the following NPS forms:

- 10-930 – Application for Special Use Permit
- 10-930c – Application for Special Use Permit – Climbing

- 10-930s – Application for Special Use Permit (short form)
- 10-931 – Application for Special Use Permit – Still Photography Permit (short)
- 10-932 – Application for Special Use Permit – Still Photography Permit (long)
- 10-933 – Application for Special Use Permit – Vehicle/Watercraft Use

The information collected on the forms is used to evaluate requests for Special Use Permits and facilitate the permitting process. If the requested use is consistent with park regulations, the information collected is used to issue a permit.
